Dorset, BH17 7AA

Due in stock 2021. The brand new Zefiro 665 debuts for the 2021 season. Based on the Ford Transit 130bhp chassis (engine upgrades to 170bhp are available), the Zefiro 665 at just 6.41m is perfect for those needing a compact motorhome but wanting space and comfort for 4 combined with a large garage. Clever design features mean the 665 sleeps 4 in comfort via the electric elevating double bed in the cabin and the rear double bed over the garage (flex bed option available). The dinette has 2 travelling seat belts and the well equipped kitchen features a large fridge/freezer, Gas oven/grill and 3 burner gas hob as standard. The bathroom provides a cassette type WC and shower plus wash basin. A talking point will be the size of the garage - exceptional in a motorhome of this size - large enough to fit ebikes or a light motorcycle! Specified with the optional driver's pack providing cab A/C, cruise control, Bluetooth Connectivity and Habitation Carpets, the 665 also has a Fiamma 4 bike rack ...
